Amjad Obay Abdelaziz

Project Manager

✉ amjad.obay@gmail.com   in Profile   Profile   📱 00201121372526

Results-driven software development professional with 15 years of experience leading software projects from conception to delivery. Seeking a challenging role where I can leverage my technical expertise and leadership skills to drive successful project outcomes. I strive to blend my skills with business knowledge to bring unique insights to the organization. Excellent communication skills that make sure business requirements are answered correctly and reliably.

Work History

Worley | Application Developer
Sep 2017 - Dec 2022 | Dammam, Saudi Arabia

- Interacted with users for technical requests to understand business requirements in different project lifecycle phases.
- Collaborated with stakeholders to define project scope, objectives, and deliverables, ensuring alignment with organizational goals and client expectations.
- Collaborated with cross-functional development team members to analyze potential system solutions based on evolving users requirements.
- Successfully integrated disparate systems to ensure seamless data flow and efficient communication between departments.
- Assisted the human resources team in developing HR management systems, optimizing employee data management and streamlining HR processes.

Worley | EDMS Administrator
Sep 2014 - Sep 2017 | Riyadh, Saudi Arabia

- Administered the in-house Document Management System (DMS), handling users, groups, security, attributes, table updates in the EDMS, along with customer service support to the users of the DMS.
- Supported IT teams to troubleshoot issues and expedite solutions.
- Collaborated with team and clients in identifying and applying best practices and continuous improvement.

Worley | Software Developer
Dec 2007 | Sep 2014 | Dammam, Saudi Arabia

- Built, tested and deployed scalable, highly available and modular software products.
- Designed and implemented an application that effectively replaces the traditional method of distributing monthly pay slips.
- Optimized database performance by creating complex SQL queries and stored procedures, reducing query execution time.
- Successfully integrated disparate systems to ensure
